

THANK YOU CARDS FROM STUDENTS FOR THE SUCCESSMAKER PROGRAM

February 23, 2015

Dear Ledyard Education Advancement Foundation,

Thank you for providing my school with another set of laptops! My grade will use these computers for many things, like research, Successmaker, and Microsoft programs.

We will be using the research for one of our class projects where we write, or some kids, are making a PowerPoint of a biography. Since we only have 6 computers, and have 23 kids in our class, it doesn't end up being equal. But now, since we have the laptops, everybody can use the Internet at the same time, and it does become equal.

February 25th, 2015

Dear Ledyard Education Advancement Foundation,

Thank you for providing us with 30 laptops for the downstairs portion of G.H.S. We have been able to work more on research and other things in our classroom. Before we only had 6 computers in our classroom and we have 23 students so we had to rotate. But now that we have 30 computers we don't need to rotate.

February 25, 2015

Dear Ledyard Education Advancement Foundation,

I would like to present you with an enormous thanks for the laptops for the downstairs classrooms. We got to use them for the first time Monday, and are using them again today. They are extremely beneficial, especially to our class. Imagine having four times as many students as you do computers!

We are currently using them for Successmaker, and then our biographies. With each student making their own Power Point, it's easier to work when we all have our individual laptops.

I think we should be extremely grateful, because we were informed that between the computers and the cart, the whole thing altogether was about \$4,000. That's enough to buy a used car! (At least that's what Mrs. Wheeler told us.)

Thank you so much for these laptops, we understand how expensive they must've been and that we are very grateful.

March 24, 2015

Dear Ledyard Education Advancement Foundation,

Thank you for buying the laptops for us. It helps us because with the laptop we can do a lot more things like Successmaker, research, and writing projects.

February 25th, 2015

Dear Ledyard Education Advancement Foundation,

Thank you for providing the downstairs laptops for Gallup Hill School. They are very useful when our whole class has to do something such as biography research, and Succesmaker. Since our class has 23 kids and only 6 computers, the laptops help everyone get what they need to get done. Also, it is helpful having the headphones with them so we can hear what we are doing instead of disturbing the whole class or putting them on mute. I think everyone is VERY happy with them because now both floors have a set of these amazing laptops to use in their class. So, once again..... Thank you very much for giving us these to work with.

April 23,2015

Dear Ledyard Education Advancement Foundation,

Thank you for buying the laptops for Gallup Hill School ,Because of your

Foundation we now have more time to use the computers and no longer have to

share a small amount of computers with a large class. Now I can have more time

for success maker math which is one of my favorites! I also enjoy typing! I learn a

lot from everything I do on the computer! I am excited to continue my Jane

Goodall research paper on our new laptops!

March 12, 2015

Dear Ledyard Education Advancement Foundation,

Thank you for the laptops that you bought us to use for our school work. It's better than sharing 6 computers between 23 of us. It's also awesome because you can take the laptop anywhere in the room and not just to the computer area. It's also great because we are working on our biography unit of study in writing workshop. And it would take a while for all of us to finish our biography without the laptops.

February 25, 2015

Dear Ledyard Education Advancement Foundation,

Thank you for the laptops at GHS. They help us with finding research about our biographical subjects. We also can do Successmaker in our classrooms instead of going all the way upstairs to the computer lab.

February 23, 2015

Dear Ledyard Education Advancement Foundation,

Thank you so very much for the new computers. Our class is very thankful. We are currently working on a research project, and we would have had to share six computers. With twenty three students in our class it would have been very difficult!

Also, we now have more time to do SuccessMaker.

March 23rd 2015

Dear Ledyard Education Advancement Foundation,

Thank you for the laptops you provided for Gallup Hill School. All of our class and G.H.S. are thankful that you bought us these laptops. Our 5th grade class is using these computers for a math & reading program called Success Maker and Microsoft PowerPoint to make slide shows for our student biographies. We take great care of these computers and leave them in the best shape possible when we are done using them. These computers give us great new thinking of what else we can do. They change our imaginations.

February 23, 2015

Dear Ledyard Education Advancement Foundation,

Thanks for providing my school with awesome computers. We all love them so much. Now both the upstairs and downstairs of the school have laptops. We are doing many things with them right now. Like biography research, SuccsesMaker reading and math and so much more.

I think the computers are amazing. And again I really thank you and so does everyone else in Gallup Hill School. Thanks for everything!

February 23, 2015

Dear Ledyard Education Advancement Foundation,

Thank you a lot for getting us new laptops downstairs. Now my class can work with laptops at our desk! We also can work on our biographies at our desk, and we can move around with the laptops, but only at a table or desk. They are great laptops!!!! Now we can work on our biographies at our desk with our partners. Also, we take great care of them. Thank you!!!

February 23, 2015

Dear Ledyard Education Advancement Foundation,

Thank you for the NEW laptops!! We use them to research our biography subject. We only have 6 computers in our classroom. Now that we have laptops at our desk, we can now work more on our biography research, drafting and revising. Last year, we used to only have one set of computers. We are so grateful to have them. We take very good care of them. Not just the fifth graders are excited to have them; the third and second graders love them too. Thank you so much for the laptops again!!!

April 23, 2015

Dear Ledyard Education Advancement Foundation,

Thank you for the laptops. It allows me to be able to google anything that I am wondering about and it helps me learn a lot. I am excited to explore new games and use them for recess. Because of the laptops I am now going to use the laptop for able to go on the Internet more. Currently, we are using the laptops for success maker and creating biographies. They also allow our class to practice typing. The next thing I am is to research Legos. That is something that I enjoy and I want to know more about. For example, who made them, when they were invented and what Legos will come out in the future.

I really appreciate your donation to Gallup Hill School.

February 23, 2015

Dear Ledyard Education Advancement Foundation,

Thank you for the laptops. We really needed them for our school work, etc. Our class only had 6 computers in our classroom. We needed them for individual classmates because we have 23 kids in our class. It's hard to rotate all of us on computers because at the time when we all rotate a lot of us don't get to use the computers. Our whole class really appreciates what you have done for us.

February 25, 2015

Dear Ledyard Education Advancement Foundation,

Thank you for the laptops. We needed them. We only had six computers and twenty-three students. The laptops will help us with all of our subjects: math, reading, etc. Our class thinks that they are a lot easier to use. They are also a lot faster than the computers that we had. We use them at our desks for a lot of learning. Thank you so much for the laptops.

February 23, 2015

Dear Ledyard Education Advancement Foundation,

Thank you for giving us the laptops. Our class needed them so much because we only had six computers for twenty three students. And some students needed more time on them, but we had to rotate until we got the laptops. Now the whole class is able to get more time and work on our biography research. We are all doing well with the laptops.

February 23, 2015

Dear Ledyard Education Advancement Foundation,

Thank you so much for the laptops. It's very helpful for our class because we have 23 students in our class, and only 6 computers. Laptops for all of us is very useful for many things such as reading, writing, math, etc. plus now we don't have to wait to get to go on a computer in our class.

March 24, 2015

Dear Ledyard Education Advancement Foundation,

Thank you for our new laptops. They are helping us immensely, because now we have even more computers to conduct research. They allow us to write biographies as well as do Successmaker, Internet searches, math and reading improvement, typing practice, creating PowerPoints, Microsoft office, and so much more. These laptops are more than helpful to us. I think everybody is very excited to use these new computers.

February 23, 2015

Dear Ledyard Education Advancement Foundation,

Thank you for buying us the laptops. They are going to help us so much in class during reading and writing workshop. At this time I am currently working on a biography PowerPoint.

The other classes downstairs will also be happy with these laptops since they need to learn more about computers because they are so young.

February 23, 2015

Dear Ledyard Education Advancement Foundation,

Thank you for the laptops. They are very helpful for our school. We only had 6 computers and 23 students in our class. They are helpful by letting everyone get a laptop so we can all work at once, instead of only 6 people on. We are also using them for a research project and the laptops make it so noone doesn't get to use a computer.

March 31, 2015

Dear LEAF Committee Members,

Thank you for your continued efforts to support our schools! The new GHS mobile lab is in high demand and adds a great deal to our quest to support student learning. As you can ascertain

from the enclosed student letters, we are truly appreciative!

Sincerely,
Penn Austen
Coalup Hill School
